

Engineered for performance

○ **Ultimate strength polymer** created from an exclusive composition of the most sophisticated polyolefins and rubber additives, expertly blended for unequalled strength and flexibility.

○ **Self-colored and UV-stabilized** for long-lasting aesthetics with no repainting required.

○ **Zinc-nickel, electrophoretic coating** on base plates as standard, provides advanced protection against corrosion damage.

○ **Ultra-low maintenance** material is chemical and water resistant, non-corrosive and non-scratch so no cracking, rusting, flaking or corrosion.

○ **H&S compliance** is emphasised ensuring workers and visitors are aware of safety procedures in the required locations.

○ **Compatible sign** inserts are available separately to suit your needs.
